PROFILE

Operations leader with 15 years in live events and broadcast, most recently heading Esports Operations at BLAST. I led a six-person department delivering 60+ flagship events and 300+ qualifiers in 13 countries, with 2,000+ freelancers and €12m+ in budgets. I have worked on live television as technical director and producer, and built TV studios from scratch. I am used to working with commercial, product and partner teams, costing and pitching new work, and writing business cases for budgets. I like building teams and clear ways of working that hold up under pressure, so that a large live show gets delivered well on the day.

EXPERIENCE

Head of Esports Operations

Jun 2023 – Oct 2026

BLAST

- Led a six-person department running tournament operations across every BLAST ecosystem, including CS2, Dota 2, Brawl Stars, Fortnite, Rocket League and Rainbow Six
- Brought Team Operations into the department, so all online and offline player management and support sat with one team
- Rebuilt how the department works, with clearer ownership, accountability and proper documentation
- Costed and pitched new tournament work with the product and commercial teams
- Set technical requirements for commercial partnerships
- Designed and built the department's own tools for tournament operations, event and equipment tracking, freelancer calendars, bookings and contracting, and event budgets and deadlines
- Wrote the business case for a departmental OPEX budget covering equipment renewal, software and cross-event costs
